

WHAT PEOPLE ARE SAYING ABOUT SMARTMIXX™

"Correct mixing is critical to the performance of ARDEX levelling compounds. After putting the SmartMixx™ through its paces in our Sydney laboratory, we can confidently say that the combination of mixing capacity, helical paddle design and built-in timer makes for a perfectly mixed ARDEX product in the shortest possible time."

Dr. Rolf Offerhaus,
ARDEX Technical Manager,
Ardex Australia Pty Ltd

"I have worked in the flooring industry for over 20 years, and we recently had a job which required 240 bags of bulk compound to be applied. I anticipated the job would take about 8 hours, but we got hold of the new SmartMixx™ and finished the job in 2 ½ hours with one less staff member than I would usually use. The SmartMixx™ is a definite goer for this industry."

John McKenzie,
Ideal Floor Topping,
Strathfield NSW

SmartMixx™

Protocol® Stirrer Model MXP1602 E (Optional with the SmartMixx™)

- Extra-powerful 1500 W motor - guaranteed excellent reliability and working performance.
- Dual-speed gears - high torque, designed for heavy or high-viscosity mixtures.
- Electronic speed control - stirrer rotational speed optimization for any mixture.
- Soft start electronics prevent materials splashing at start-up.
- Ergonomic, balanced design of the handles - less effort needed for operation of the stirrer.

For further information contact your participating visit: www.con-treat.com.au.

Products are correct at time of printing but are subject to change without notice. Protocol® Stirrer is optional and sold separately. Orders can be taken for product not held in stock at the time of enquiry.

SmartMixx™

PORTABLE MIXING STATION

**FAST MIX & POUR
FOR LEVELLING COMPOUNDS**

SmartMixx™ is the ultimate mixing station for self-levelling cements and compounds, producing a perfect mix every time. Designed by Contractors for Contractors, this portable station provides efficient hands-free mixing and fast precision pouring of materials.

**GET YOUR JOB DONE
IN HALF THE TIME!
MIX UP TO 80KG IN
3 MINUTES.**

One SmartMixx™ station can mix up to 80kg (4 bags) in 3 minutes, that's 1 Tonne per hour.

For jobs larger than 80m² two SmartMixx™ stations are recommended so you can get big jobs done FAST! Two SmartMixx™ stations can mix 2 Tonne per hour.

SMART OPTIONS

With the ability to fully remove the Protool® Stirrer you can mix multiple batches by having two SmartMixx™ stations using the one Stirrer.

An additional SmartMixx™ bucket can be purchased and used to supply a water source on job sites for cement preparation and cleaning purposes.

SMARTMIXX™ FOR FAST & EASY PRECISION POURING

APPLICATIONS

- Mix and pour self-levelling cements and compounds.
- Mix up to 80kg in 3 minutes.
- Produces a consistent perfect mix every time.
- Removable bucket and stirrer for small batch mixing.

FEATURES

- Quick and easy to assemble.
- Hands-free mixing.
- 4-wheel mobility – easy to manoeuvre and spread materials quickly.
- Easy-tilt operation for precision pouring.
- In-built timer for accurate batch mixing.
- Ultra-lightweight mixing station – only 18kg without Protool® Stirrer, (25kg total weight with Protool® Stirrer).
- Optional detachable Protool® Stirrer Model MXP1602 E with variable speeds and helical paddle.
- Removable cover for dust & splash reduction ensures safer use and less mess.
- Remove the stirrer and use the trolley to transport product and tools on job sites.
- Easy to clean and transport.

GREAT VALUE \$\$\$

- Pays for itself quickly - saves time on jobs and labour costs!
- Built to last - made from high quality, light and durable materials.
- 12 MONTH GUARANTEE.
