

Jackhammer Trolley

The JHT is a versatile demolition tool that removes floor tiles, vinyl and cork from concrete and wooden surfaces. The JHT assists with breaking rocks, blocks, concrete and sandstone and can also prepare surfaces by removing residue from tile beds and concrete floors.

- Complete the job up to six times faster than when using a jackhammer alone
- Trolley angle adjustment to six different positions from 20-80° for better ergonomics
- Built-in shock absorption reduces vibration impact, back strain and operator fatigue

Jackhammer Trolley JHT

For fast removal of floor tiles, vinyl and cork

Suitable for the following 16kg (35lbs) jackhammer models:

- Bosch GSH16
- Dewalt D25901K-XE
- Hilti 1000 & 1500
- Hitachi H65
- Makita 1307 & 1317

▶ Suits most 16kg jackhammers

▶ Secondary shock absorber

▶ Shanks to suit most hammers

▶ Multi angle adjustments

▶ Foot plate for extra leverage

Specifications

Weight	27.5kg (60.6lbs)
Dimensions	L 1000mm (3ft 3in) x W 400mm (1ft 3in) x H 300mm (12in)

▶ Tile Smasher Jackhammer Attachment TSH

The revolutionary Tile Smasher Head is designed as a single steel block head which reduces movement in the blade when removing floor coverings. The countersunk threaded bolt system ensures no shearing of bolts. The Makinex TSH comes fitted with a heavy duty 150mm wide, high tensile steel replaceable blade offering users a reliable system for getting the job done.

▶ Makinex Flippable Wide Chisel Jackhammer Attachment FWC is a 75mm wide, hardened steel chisel that can be turned over and used on each side allowing more even wear, thus extending the life of the chisel.

Note: *Jackhammer attachments are sold separately.

“Customers claim 6 times faster than using a jackhammer alone”
